UPDATE 31 JANUARY 2014

COMMENCEMENT OF THE BYOD PROGRAM

The ‘Bring Your Own Device’ (BYOD) Program commences in DEC schools in NSW at the beginning of this term. Students are now able to bring a personally owned laptop or tablet and connect to the school’s Wi-Fi network for the purpose of education.

Prior to connecting a device for the first time, students and their parents will need to read and sign a BYOD Student Agreement which will set out the responsibilities and expectations for use of the personal device at Burwood Girls High School. The Student Agreement should be read in conjunction with the BYOD Minimum Device Requirements.

The BYOD Student Agreement is being distributed to students during their roll call period on Friday 31 January. The signed agreement should then be returned to the roll call teacher during Week 2. On receipt of the student agreement students will be given instructions on connection procedures for their particular device.
